

MAINTENANCE INSTRUCTIONS

ORDINARY MAINTENANCE

FENIX NTM[®] surface should be cleaned regularly but does not require any special maintenance, just a damp cloth with warm water or mild detergents. Almost all normal household cleaning products or disinfectants are perfectly well tolerated. It is suggested to use a melamine foam sponge - also known as magic sponge - for the normal cleaning and maintenance of the surface.

EXTRAORDINARY MAINTENANCE

In case of dirt which cannot be cleaned with normal household detergents, due to the irregular topography and closed surface of FENIX NTM, the use of non-aggressive aromatic solvents (acetone) is suggested. In case of micro scratches, please refer to the specific surface thermal healing instructions.

DAILY MAINTENANCE TIPS

The everyday use of a melamine foam is recommended for the proper regeneration of the material.

Maintenance instructions IRON

1. Superficial defects caused by micro-scratches.
2. Place a dampened kitchen roll sheet on the area where the micro-scratches can be seen.
3. Position the heated iron onto the surface that needs to be repaired. Do not leave the iron on the part of the surface for more than 10 seconds.
4. Rinse the repaired area with lukewarm water and microfiber cloth.
5. The surface should now be healed.

Maintenance instructions MELAMINE FOAM

1. Superficial defects caused by micro-scratches.
2. Rub a melamine foam sponge on the area where the micro-scratches can be seen. The sponge can be used dry or slightly damp.
3. The surface should now be healed.
